Weihenstephaner am Platzl

Tradition Meets Modernity

As the world's oldest continuously operating brewery, our brewery stands majestically atop the Weihenstephan Hill in Freising, surrounded by the comparatively young Weihenstephan Science Center of the Technical University of Munich. It is precisely this unique blend of tradition – of time-honored, proven expertise – and modern science that gives the brewery its distinctive identity and enables us to brew a wide variety of beers of the highest possible quality.
